SCULPTOR SHARES ART WITH HEART

Distillusionment is one of the penalties of investigation, and those who are forced to investigate grow to accept disillusionment as part of the game; in fact, they are more than surprised when the revelation is proportionate with what is hoped for. Now a sculptor -there is no scientific or technical reason for this statement-should be a big man, with huge, strong hands. One pic tures him as being capable of moving

his own statues about. "Ulric Stonewall Jackson Dunbar,

21/2 grains of caffeine, a drug which often produces aches, ails and discomfort; but the habit can be quickly overcome by using wellmade Postum.

One of the most pleasing features of this change from coffee to Postum is the total absence of a sense of something missed.

But more important is that "good all over" feling of returning health; and it's the finest trade possible to quit coffee and get well.

Postum, made of prime wheat and a snall per cent of New Orleans molasses, is a pure food-drink. It is wholesome and nourishing; and has a delicious, snappy flavour resembling that of Old Gov't Java, but is entirely free from the coffee drug,

Anyone can make a stand for the old fashioned fun that comes with health and the power to "do things." Suppose you try it!

"There's a Reason" for POSTUM

Postum now comes in two forms:

Regular Postum-must be boiled 15 to 20 minutes.

Instant Postum-is a soluble powder. A scant teaspoonful stirred in a cup of hot water dissolves instantly.

The convenience of Instant Postum is apparent. But, when prepared according to directions, both kinds are exactly the same. The cost per cup is about equal.

-Grocers everywhere sell both kinds.
